Nigeria Entrepreneurship Youth Initiative

Nigeria Entrepreneurship Youth Initiative
Advocacy For Youthful Entrepreneurship

Dear Sir/Ma

**LETTER OF INTENT AND PARTNERSHIP FOR THE ESTABLISHMENT OF
FIRST TECH AND AGRO CAMPUS VILLAGE
OF OYO STATE COLLEGE OF AGRICULTURE AND TECHNOLOGY**

I hope this letter finds you in good health and high spirits. On behalf of the Nigeria Entrepreneurship Youth Initiative (NEYI), I am writing to express our deep appreciation for the exceptional Digital Entrepreneurship Summit held at Oyo State College of Agriculture and Technology (OYSCATECH) earlier this year. The summit served as an enlightening platform that underscored the importance of cultivating digital skills and entrepreneurial spirit among the youth, a value that NEYI deeply resonates with.

We were truly inspired by the dedication and commitment of the OYSCATECH management in partnering with us to organize such an impactful event. The summit showcased the institution's forward-thinking approach to nurturing young talents, preparing them for the challenges and opportunities presented by the digital age.

Nigeria Entrepreneurship Youth Initiative

Advocacy For Youthful Entrepreneurship

The Proposed Project:

The Campus Tech and Agric Hub will consist of an "Apple Campus Village," dedicated to apple plantation in collaboration with our partners in Kenya, and a "Tech Innovation Center." The Tech Innovation Center will offer students of OYSCATECH the opportunity to acquire practical digital skills, ensuring they have access to knowledge that discourages involvement in cybercrime. The aim is to empower the students with skills such as digital marketing, social media marketing, project management, website and app development, data analysis, NFT, and Metaverse technologies.

The Apple Campus Village:

The Apple Campus Village will be a pioneering initiative in Nigeria, with its focus on apple plantation. We believe that this will significantly increase the institution's agricultural produce and make it a beacon for neighboring states. Each student at OYSCATECH will have the privilege of owning an apple tree, providing them with a source of wealth that can last for up to 50 years in fruit production and 80 to 100 years in existence. The village will not only foster sustainable agriculture but also produce various apple-based products such as apple juice, apple cheese, apple custard, and other innovative products that NEYI and its partners are eager to develop.

Mutual Benefits:

Our collaboration with OYSCATECH will elevate the institution's reputation and attract the attention of multi-billionaire companies and other potential partners. Together, we can position OYSCATECH as a trailblazer in the education and agricultural sectors in Nigeria. This will drive economic growth, create employment opportunities, and further strengthen the region's agricultural ecosystem.

Nigeria Entrepreneurship Youth Initiative
Advocacy For Youthful Entrepreneurship

Request for Land:

To materialize this vision, we kindly request the allocation of approximately 3 acres of land on the college campus. This land will serve as the foundation for both the Campus Tech Hub and the Apple Campus Village. The resources and expertise brought in by NEYI and our international partners will complement OYSCATECH's resources and academic capabilities, fostering a mutually beneficial partnership that will leave a lasting impact on the community.

Nigeria Entrepreneurship Youth Initiative

OYSCATECH S.U.G CAMPUS DIGITAL RADIO

I would like to extend our heartfelt appreciation to the management of Oyo State College of Agriculture and Technology (OYSCATECH) for embracing the innovative initiative of creating a Digital Campus Radio Station at the institution.

The Digital Campus Radio Station stands as a testament to the commitment of OYSCATECH in fostering a dynamic and technologically advanced learning environment. We are truly honored to have the opportunity to contribute to this forward-thinking project.

Appreciation for Accepting the Innovation:

We are profoundly grateful for the acceptance and support shown by OYSCATECH in embracing the Digital Campus Radio Station. NEYI is more than ready to train a selected set of students, as decided by the management of OYSCATECH, on how to operate the radio station. This training will not only enhance the students' skills but also provide them with a platform to communicate with fellow students, alumni, the diaspora community, and the wider public.

Nigeria Entrepreneurship Youth Initiative

Boosting Student Skills and Community Engagement :

The Digital Campus Radio Station will serve as a catalyst for nurturing talent and promoting dialogue among students and the community. This platform will enable students to gain practical experience in media communication, broadcasting, and content creation. Moreover, it will facilitate connections with alumni and youth in the diaspora, fostering a strong network of OYSCATECH ambassadors worldwide.

Mutual Benefits :

The collaboration between NEYI and OYSCATECH for the Campus Tech and Agric Hub holds great promise for both parties. The Tech Innovation Center, combined with the Digital Campus Radio Station, will elevate OYSCATECH's reputation and position it as a leader in innovation, education, and agriculture.

In conclusion, we believe that the collaboration between NEYI and OYSCATECH will not only transform the lives of students but also contribute to the economic development and agricultural advancement of the region. We are committed to driving this initiative with passion and dedication, and we sincerely hope to work closely with OYSCATECH to bring this vision to fruition.

Thank you for considering our proposal. We eagerly await the opportunity to discuss this partnership further and explore the incredible possibilities that lie ahead.

Yours sincerely,

Adefisoye Adeshola Joseph
